

Imagine. Your own team of qualified doctors.

Better health. Everywhere. For Everyone.

IMPROVE YOUR HEALTH

ENHANCE YOUR LIFE

With SmartMed™ HomeCare you can have your own team of qualified doctors monitoring your vital health signs, all day and every day.

SmartMed™ allows you to monitor your own health and vital signs from the comfort of your own home or at your workplace using our unique, easy to use Android Smartphone app.

Once downloaded onto your phone or tablet, the app guides you through the regular process of capturing vital health signs such as blood pressure, cholesterol levels and glucose.

The optional Bluetooth® connected medical devices, capture your vital signs or you can use the low cost unconnected devices, or even use your own.

Your health data is then uploaded over the Internet to our team of doctors and clinical experts in our Tele-healthcare Centre.

Your results are analysed and our clinicians can provide timely advice or arrange referrals for treatment or further investigations.

SmartMed™ is developed and managed by a London based company, Appdragon Ltd, which has offices and many employees based in Dhaka. The service, which is based on stringent UK and European medical guidelines has been successfully deployed in the UK, Europe and the Middle East.

mHealthcare for everyone  
Take Control of Your Health

# WHY SMARTMED?

# IMPROVE YOUR HEALTH ENHANCE YOUR LIFE

## 1 Peace of Mind

Manage your own long-term health condition with all the back up you need from our doctors & clinical experts.

## 2 Lower Healthcare Costs

Fewer clinic & hospital appointments, less travel, less stress, less time away from home and your place of work.

## 3 Improve Your Health

Take regular tests in your own home. 24 hour monitoring and checking by doctors & clinicians. Timely action and support when needed.

"SmartMed allows me to make health assessments for patients every day. As a consequence, the health of my patients has improved dramatically."

Dr Havard, NHS GP

We will provide some of the best doctors available to monitor your health via our SmartMed™ HomeCare app for Android phones & tablets capturing your vital signs with the optional set of Bluetooth® connected medical devices.

Taking control of your own long-term condition and improving your health couldn't be easier.

Order today and be healthy.
